A community of neighbors, a tradition of caring since 1796.

Several of our volunteers on both the Fire Department and First Responder units have voiced their concerns regarding the inability to locate some of our residents in an emergency. There have been a few 911 calls where responders were not able to find the residence in a timely manner because there were no house numbers that were easily visible from the road.

These emergency responders cannot express enough the importance of such a simple concept. Please number your houses so that you may be found quickly in an emergency. Although signs are NOT required there is no particular dimension, color or design layout that is suggested. These signs should be reflective, so they are visible at night, and should be placed where they can be seen easily from the road. Get as creative as you like. You could also utilize the form below and have the Town E-911 Addressing Officer, Toupie Rooney, make a numbered sign for you at a minimal cost of \$12.00 which can be picked up on Friday's at the Town Office.

Our responders cannot help you if they cannot find you.
