

Town of Northport
Climate Resilience Committee
Agenda, 13 Dec 2023

NEXT MEETING: TBD

PRESENT:

AGENDA:

- Mapping drainage issues with Amon Morse and Bill Paige.
 - I met with Amon and Bill and a big map and we highlighted all the trouble spots that they knew of. Let's have a look and see if there are any more that you know of that we can mark. Once that's done, I will use a large-scale scanner to digitize it. From there we can add layers of more information and update as needed.
- Compiling town energy accounts: update from Dave
 -  Northport Climate Resilience Committee_ Draft Energy Use Email to CMP
- Grants and funding (funding subcommittee–did we identify who this is? Celine and anyone else?)
 - Let's look through current possible targets, identify which ones we can go for, and hand that over to the grant subcommittee.
 - <https://www.maine.gov/mdot/grants/>
 - https://www.energy.gov/sites/default/files/2023-10/OCED_Rural-Remote%20Fed%20Overview.pdf
 -  Resource Events December 4, 2023.docx
- Education and outreach (Priority H)
 - Brainstorm ideas
 - One idea I have is to create a webpage, it could be linked through the town website. It would have useful info for homeowners including tips for energy efficiency, stormwater management, and resources like rebates, etc. Dan Morrison (my husband) is currently producing a series of simple, animated informational and how-to videos (aimed at homeowners) for the Pacific Northwest National Labs that he has offered to let us use if appropriate. Here is an example (**please don't share this video just yet as it is still in the approval process):
<https://www.youtube.com/watch?v=30fC4lWKJQc>
- Anything else we want to talk about?
- Schedule next meeting
