Independent Auditors' Report

**To the Selectboard
Town of Northport
Northport, Maine**

Opinions

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Town of Northport, Maine, as of and for the year ended June 30, 2023, and the related notes to the financial statements, which collectively comprise the Town's basic financial statements as listed in the table of contents.

In our opinion, based on our audit and the report of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund and the aggregate remaining fund information of the Town of Northport, Maine, as of June 30, 2023, and the respective changes in financial position for the year then ended, in accordance with accounting principles generally accepted in the United States of America.

We did not audit the financial statements of the Northport School Department's general fund and other governmental funds (special revenue funds), which represent 50%, 39%, and 62%, respectively, of the assets, fund balances/net position, and revenues of the Town of Northport, Maine. Those statements were audited by other auditors whose report has been furnished to us, and in our opinion, insofar as it relates to the amounts included for the general fund and other governmental funds, is based solely on the report of the other auditors.

Basis for Opinions

We conducted our audit in accordance with auditing standard generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Town of Northport, Maine, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Town of Northport, Maine's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Town of Northport, Maine's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Town of Northport, Maine's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis, budgetary comparison information, the Schedule of the Town's Proportionate Share of the Net Pension Liability, the Schedule of the Town's Pension Contributions, the Schedule of the Town's Proportionate Share of the MEPEERS Plan Net OPEB Liability, the Schedule of Changes in the Town's Total MMEHT Plan OPEB Liability and Related Ratios, the Schedule of Changes in the Town's Total MEABT Plan OPEB Liability and Related Ratios, and the Notes to the Schedules, as noted in the table of contents, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We and other auditors have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's

responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Town of Northport, Maine's basic financial statements. The combining and individual nonmajor fund financial statements are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements are fairly stated, in all material respects, in relation to the financial statements as a whole.

MANAGEMENT'S DISCUSSION AND ANALYSIS

Our discussion and analysis of the Town of Northport's financial performance provides an overview of the Town's financial activities for the year ended June 30, 2023. Please read it in conjunction with the Town's financial statements.

Using this Annual Report

This annual report consists of a series of financial statements. The Statement of Net Position and the Statement of Activities provide information about the activities of the Town as a whole and present a longer-term view of the Town's finances. Fund financial statements are presented next. For governmental activities, these statements tell how these services were financed in the short term as well as what remains for future spending. Fund financial statements also report the Town's operations in more detail than the government-wide statements by providing information about the Town's most significant funds.

Reporting the Town as a Whole

The Statement of Net Position and the Statement of Activities

One of the most important questions asked about the Town's finances is, "Is the Town as a whole better off or worse off as a result of the year's activities?" The Statement of Net Position and the Statement of Activities report information about the Town as a whole and about its activities in a way that helps answer this question. These statements include all assets and liabilities using the accrual basis of accounting, which is similar to the accounting used by most private-sector companies. All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid.

These two statements report the Town's net position and the current year change in net position. You can think of the Town's net position - the difference between assets (and deferred outflows) and liabilities (and deferred inflows) - as one way to measure the Town's financial health, or financial position. Over time, increases or decreases in the Town's net position is one indicator of whether its financial health is improving or deteriorating. You will need to consider other nonfinancial factors, however, such as changes in the Town's property tax base and the condition of the Town's roads, to assess the overall health of the Town.

The Statement of Activities reports the current year change in net position. This statement includes all of the current year's revenues and expenses regardless of when cash is received or paid.

- Governmental activities - Most of the Town's basic services are reported here, including the fire protection, general administration, road maintenance, funding of education, county tax payments, cemetery care, health and sanitation, and recreation. Property and excise taxes, state and federal grants, and miscellaneous reimbursements and fees finance most of these activities.

Reporting the Town's Most Significant Funds Fund Financial Statements

Our analysis of the Town's major funds begins with the fund financial statements on page 6 and provide detailed information about the most significant funds - not the Town as a whole. Some funds are required to be established by State law. However, the Selectboard establishes many other funds to help it control and manage money for particular purposes or to show that it is meeting legal responsibilities for using certain taxes, grants, and other money. The Town's funds-governmental accounting approach is as follows:

- Governmental funds - Most of the Town's basic services are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end that are available for spending. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the Town's general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the Town's programs. We describe the relationship (or differences) between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds in a reconciliation on pages 8 and 10.

THE TOWN AS A WHOLE

For the years ended June 30, 2023 and 2022, net position changed as follows:

	2023	2022
Governmental Activities		
Beginning net position	\$ 10,389,368	\$ 9,799,555
Increase in net position	<u>99,726</u>	<u>589,813</u>
Ending net position	<u>\$ 10,489,094</u>	<u>\$ 10,389,368</u>

That reflects an increase of 1% for governmental activities in 2023.

The large increase in net position in 2022 reflects the Town's receipt of covid relief funds. The much smaller increase in net position in 2023 represents a return to the pre-covid rate of increase.

Governmental Activities

To aid in the understanding of the Statement of Activities some additional explanation is given. Of particular interest is the format that is significantly different than a typical Statement of Revenues, Expenses, and Changes in Fund Balance. You will notice that expenses are listed in the first column with revenues from that particular program reported to the right. The result is a Net (Expense) Revenue. The reason for this kind of format is to highlight the relative financial burden of each of the functions on the Town's taxpayers. It also identifies how much each function draws from the general revenues or if it is self-financing through fees and grants. Some of the individual line item revenues reported for each function are:

General government	Building permits, planning board receipts, tax interest and charges, and fines
Health and sanitation	Landfill receipts and transfer station reimbursements
Public works	Local road assistance

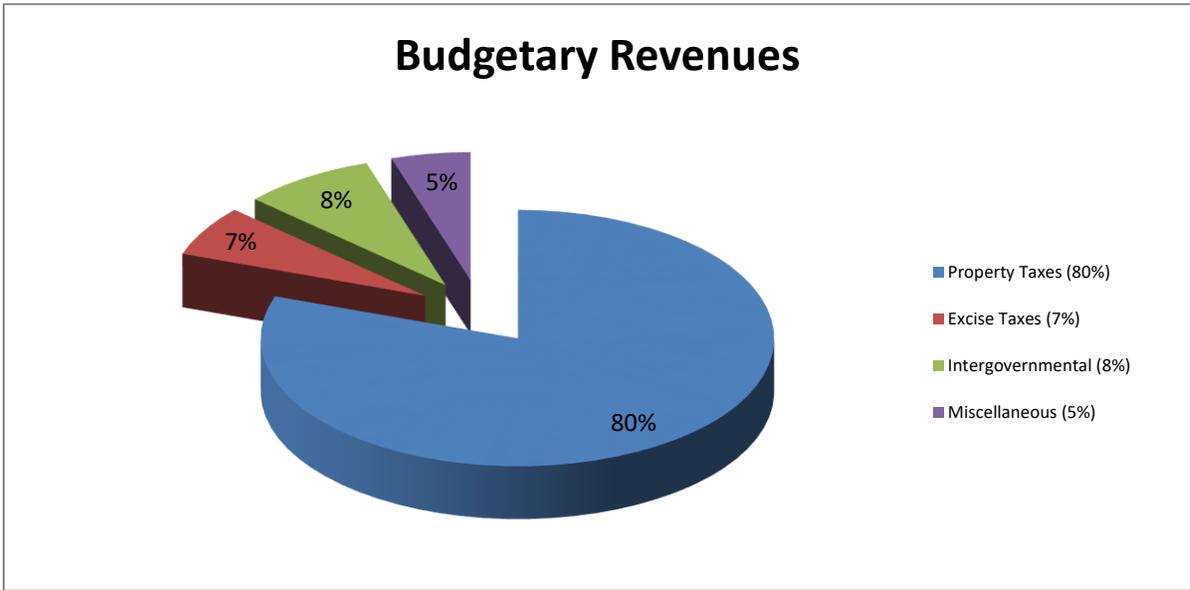

All other governmental revenues are reported as miscellaneous. It is important to note that all taxes are classified as general revenue even if restricted for a specific purpose.

THE TOWN'S FUNDS

The following schedule presents a summary of general fund revenues and expenditures on a budgetary basis for the fiscal years ended June 30, 2023 and 2022, and the amount and percentage of increases and decreases in relation to the prior year.

The Town's general fund operating fund revenues on a budgetary basis were as follows:

<u>Revenue</u>	<u>2023</u> <u>Amount</u>	<u>2022</u> <u>Amount</u>	<u>Increase</u> <u>(Decrease)</u> <u>from 2022</u>	<u>%</u> <u>Increase</u> <u>(Decrease)</u>
<i>Property taxes</i>	\$ 4,746,813	\$ 4,556,094	\$ 190,719	4.2%
<i>Excise taxes</i>	376,875	375,906	969	0.3%
<i>Intergovernmental</i>	492,180	688,476	(196,296)	(28.5%)
<i>Miscellaneous</i>	<u>295,087</u>	<u>220,479</u>	<u>74,608</u>	<u>33.8%</u>
Total Revenue	<u>\$ 5,910,955</u>	<u>\$ 5,840,955</u>	<u>\$ 70,000</u>	<u>1.2%</u>

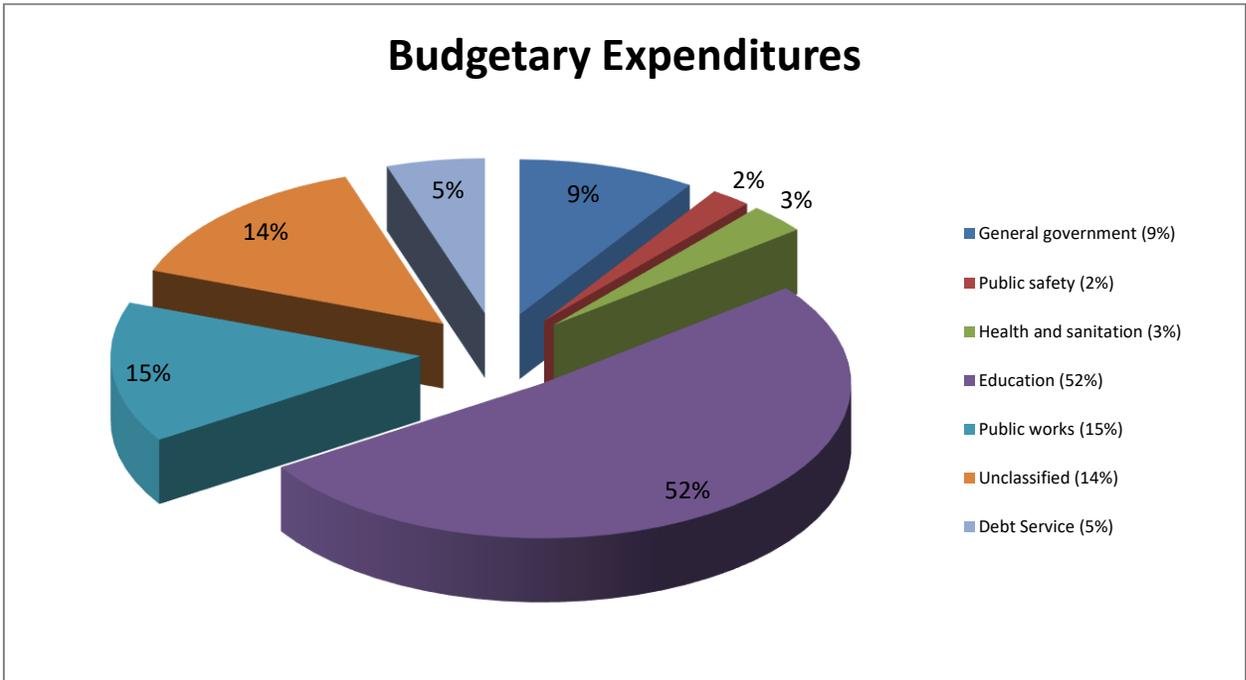

The decrease in intergovernmental revenue from 2022 to 2023 results from the covid relief funds the Town received in 2022. The 2023 intergovernmental revenue represents a return to pre-covid levels.

The increase in miscellaneous revenue from 2022 to 2023 comes in part from the much higher interest rates that the Town’s investments earned; the Town earned almost 9 times as much interest in 2023 as in 2022. The Town also received almost 50% more in revenue from the Transfer Station in 2023 than 2022, which was a result of increased user fees to match increased vendor costs.

The Town’s general fund operating fund expenditures on a budgetary basis were as follows:

<u>Expenditures</u>	<u>2023</u> <u>Amount</u>	<u>2022</u> <u>Amount</u>	<u>Increase</u> <u>(Decrease)</u> <u>from 2022</u>	<u>% Increase</u> <u>(Decrease)</u>
<i>General government</i>	\$ 541,583	\$ 363,254	\$ 178,329	49.1%
<i>Public safety</i>	123,459	138,708	(15,249)	(11.0%)
<i>Health and sanitation</i>	179,902	166,305	13,597	8.2%
<i>Education</i>	2,949,917	2,685,087	264,830	9.9%
<i>Public works</i>	855,966	846,219	9,747	1.2%
<i>Unclassified</i>	834,044	760,672	73,372	9.6%
<i>Debt Service</i>	299,840	301,351	(1,511)	(0.5%)
Total Expenditures	<u>\$ 5,784,711</u>	<u>\$ 5,261,596</u>	<u>\$ 523,115</u>	<u>9.9%</u>

The primary reason for the substantial increase in General Government expenditures in 2023 from 2022 was the Town spending its covid relief money on broadband internet infrastructure. The Town received those funds in 2022 as revenue and spent them in 2023 as an expenditure.

GENERAL FUND BUDGETARY HIGHLIGHTS

The budget to actual comparison is shown on page 11.

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets

At the end of June 30, 2023, the Town had \$11.6 million invested in capital assets including fire trucks, equipment, buildings, and town owned roads. (See table below.)

	Governmental Activities	
	<u>June 30, 2023</u>	<u>June 30, 2022</u>
Land	\$ 924,851	\$ 924,851
Buildings	4,663,836	4,663,836
Equipment	237,225	182,285
Vehicles	867,584	867,584
Infrastructure	<u>4,938,127</u>	<u>4,938,127</u>
Totals	<u>\$ 11,631,623</u>	<u>\$ 11,576,683</u>

The only change to capital assets was from the Fire Department disposing of some out-of-date equipment and the School purchased some new equipment.

Debt

At year end, the Town had \$2,284,462 in long-term debt outstanding. The long-term debt is made up of three General Obligation Bonds outstanding for the Northport School Department as discussed in Note F.

The Town has no other debt obligations.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

At the June 2024 annual town meeting, the Town voted to appropriate funds to set aside for a Town-wide property revaluation in the coming years; the last revaluation was completed in 2004 and one is recommended every ten years. The property revaluation is scheduled to be completed for the 2026 tax year.

The Town also voted to appropriate funds for the design and planning of a new Town Office, because the current building has heating, cooling, and structural concerns that will require it to be replaced. At the annual town meeting in 2025, the Town will be voting on appropriating money for construction costs for the new Town Office.

Unpredictable weather events and conditions may affect road repair and maintenance costs.

CONTACTING THE TOWN'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, customers, and creditors with a general overview of the Town's finances and to show the Town's accountability for the money it receives. **Reconciliation of Governmental Funds Balance Sheet
to the Statement of Net Position**

Town of Northport, Maine

As of June 30, 2023

Total Fund Balances - Governmental Funds \$ 4,342,530

Amounts reported for governmental activities in the Statement of
Net Position are different because:

Capital assets used in governmental activities are not financial
resources and therefore are not reported as assets in governmental
funds. The cost of capital assets, net of accumulated depreciation is: 8,423,677

Property tax revenues are presented on the modified accrual basis
of accounting in the governmental funds but in the Statement of
Activities, property tax revenue is reported under the accrual method.
The balance in unavailable revenue - property taxes in the
governmental funds as a deferred inflow is: 122,000

The following deferred outflows are not current assets or
financial resources and the following deferred inflows are not
current liabilities due and payable in the current period and
therefore are not reported in the Balance Sheet:

Deferred outflows related to pension	\$	92,271	
Deferred outflows related to OPEB		39,768	
Deferred inflows related to pension		(19,601)	
Deferred inflows related to OPEB		<u>(19,675)</u>	
			92,763

Long-term liabilities are not due and payable in the current period
and therefore are not reported as liabilities in the funds. Long-term
and related liabilities at year-end consist of:

Bond payable		(2,284,462)	
Accrued compensated absences		(19,939)	
Net pension liability		(84,922)	
Net OPEB liability		(91,245)	
Accrued interest payable		<u>(11,308)</u>	
			<u>(2,491,876)</u>

Net Position - Governmental Activities \$ 10,489,094

Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balances of Governmental Funds to the Statement of Activities

Town of Northport, Maine

As of June 30, 2023

Net Change in Fund Balances - Total Governmental Funds \$ 117,513

Amounts reported for governmental activities in the Statement of Activities are different because:

Governmental funds report capital outlays as expenditures. However, in the Statement of Activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which depreciation expense differed from capital asset additions in the current period:

Additions to capital assets	\$ 63,440	
Depreciation expense	<u>(300,446)</u>	(237,006)

Debt and capital lease proceeds provide current resources to governmental funds, but issuing debt and capital lease obligations increase long-term liabilities in the Statement of Net Position. Repayment of debt and lease principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the Statement of Net Position. This is the amount of repayment of debt obligations in the current period:

Principal portion of debt service payments	<u>228,994</u>	228,994
--	----------------	---------

Some expenses reported in the Statement of Activities do not require the use of current financial resources and therefore are not reported as expenditures in the governmental funds:

Change in accrued compensated absences	(502)	
Change in accrued interest payable	1,000	
Adjustment to net pension and OPEB liabilities and related deferred inflows and outflows for the Northport School Department	(31,869)	
Adjustment to net OPEB liability and related deferred inflows and outflows for the Town of Northport	<u>2,596</u>	(28,775)

Property tax revenues are presented on the modified accrual basis of accounting in the governmental funds but in the Statement of Activities, property tax revenue is reported under the accrual method. The current year change in unavailable revenue - property tax revenue reported in the governmental funds and not in the Statement of Activities is:

19,000

Change in Net Position of Governmental Activities \$ 99,726

Notes to Financial Statements

Town of Northport, Maine

Note A - Summary of Significant Accounting Policies

The Town of Northport, Maine operates under a Selectboard form of government. The accounting policies of the Town of Northport, Maine conform to United States generally accepted accounting principles (GAAP). The Town applies all relevant Governmental Accounting Standards Board (GASB) pronouncements. The more significant accounting policies established in GAAP and used by the Town are discussed below.

Principles Determining Scope of Reporting Entity

The basic financial statements include the accounts of all Town operations. The criteria for including organizations as component units within the Town's reporting entity, as set forth in GAAP include whether:

- the organization is legally separate (can sue and be sued in their own name)
- the Town holds the corporate powers of the organization
- the Town appoints a voting majority of the organization's board
- the Town is able to impose its will on the organization
- the organization has the potential to impose a financial benefit/burden on the Town
- there is fiscal dependency by the organization on the Town

Based on the aforementioned criteria, the Town of Northport has no component units.

Basis of Presentation

Government-wide Financial Statements

The statement of net position and statement of activities report information about the reporting government as a whole. They include all funds of the reporting entity. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for services for support. Currently, the Town has no business-type activities.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. The Town does not allocate indirect expenses to functions in the statement of activities. Program revenues include 1) charges to customers or applicants who purchase, use or directly benefit from goods, services, or privileges by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported as general revenues.

Separate financial statements are provided for governmental funds. Major individual governmental funds are reported as separate columns in the fund financial statements.

Note A - Summary of Significant Accounting Policies - Continued

Fund Financial Statements

Fund financial statements of the reporting entity are organized into funds, each of which are considered to be separate accounting entities. Each fund is accounted for by providing a separate set of self-balancing accounts, which constitute its assets, liabilities, deferred outflows and inflows of resources, fund equity, revenues, and expenditures.

Governmental Activities

Governmental funds are identified as either general, special revenue, capital projects, or permanent funds based upon the following guidelines.

The *General Fund* is the operating fund of the Town and is always classified as a major fund. It is used to account for all financial resources except those required to be accounted for in another fund.

Special Revenue Funds are used to account for the proceeds of specific sources (other than major capital projects or expendable trusts) that are legally restricted to expenditures for specified purposes.

Capital Project Funds are used to account for financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by proprietary funds and trust funds).

Permanent Funds are used to account for resources legally held in trust. All resources of the fund, including any earnings on invested resources, may be used to support the organization as stipulated by the specific trust instrument.

Basis of Accounting

Basis of accounting refers to when revenues and expenditures or expenses are recognized in the accounts and reported in the financial statements. Basis of accounting is related to the timing of the measurements made, regardless of the measurement focus applied.

Accrual

The governmental activities in the government-wide financial statements are presented on the accrual basis of accounting. Revenues are recognized when earned and expenses are recognized when incurred

Modified Accrual

Governmental funds financial statements are presented on the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recorded when susceptible to accrual; i.e., both measurable and available. "Available" means collectible within the current period or within 60 days after year-end. Expenditures are generally recognized under the modified accrual basis of accounting when the related liability is incurred. The exception to this general rule is that principal and interest on general obligation long-term debt is recognized when due.

Notes to Financial Statements

Town of Northport, Maine

Note A - Summary of Significant Accounting Policies - Continued

Cash and Cash Equivalents

The Town's cash and cash equivalents are considered to be cash on hand, demand deposits and short-term investments with original maturities of three months or less from the date of acquisition.

Investments

The Town follows GASBS No. 31, Accounting and Reporting of Certain Investments and External Investment Pools. Under GASBS No. 31, certain investments held by governments are reported at their fair value in the balance sheet. Unrealized gains and losses are included in the statement of revenues, expenditures and changes in fund balance.

Inventories

Inventories consisting of food and supplies are accounted for at the lower of cost or net realizable value on a first-in, first-out (FIFO) basis. The costs of governmental fund-type inventories are recorded as expenditures when consumed rather than when purchased.

Accounts Receivable

Accounts receivable are stated at the amount the Town expects to collect from outstanding balances. Town management closely monitors outstanding balances and records an allowance for doubtful accounts as necessary based upon historical trends of bad debts as well as a detailed review of current year receivables and their aging. Management has estimated no allowance for doubtful accounts is necessary as of June 30, 2023.

Capital Assets

In the government-wide financial statements, capital assets purchased or acquired with an original cost of \$10,000 or more are reported at historical cost or estimated historical cost. Contributed assets are reported at fair market value as of the date received. Additions, improvements and other capital outlays that significantly extend the useful life of an asset are capitalized. Other costs incurred for repairs and maintenance are expensed as incurred. Depreciation on all assets is provided on the straight-line method.

Estimated useful lives are as follows: buildings and improvements, 20 to 40 years; infrastructure, 5 to 40 years; and vehicles and equipment, 3 to 25 years.

In the fund financial statements, fixed assets used in governmental fund operations are accounted for as capital outlay expenditures of the governmental fund upon acquisition. Fixed assets are not capitalized and related depreciation is not reported in the fund financial statements.

Accrued Compensated Absences

Under the terms of personnel policies, personal time off is granted in varying amounts. The Town accrues unpaid personal time off when earned (or estimated to be earned) by the employee.

Note A - Summary of Significant Accounting Policies - Continued

Budget

The Town of Northport's policy is to adopt an annual budget for operations. The budget is presented on the modified accrual basis of accounting, which is consistent with generally accepted accounting principles.

The following procedures are followed in establishing budgetary data reflected in the financial statements:

- Early in the second half of the last fiscal year the Town prepared a budget for this fiscal year beginning July 1. The operating budget includes proposed expenditures and the means of financing them.
- A meeting of the inhabitants of the Town of Northport was then called for the purpose of adopting the proposed budget after public notice of the meeting was given.
- The budget was adopted subsequent to passage by the inhabitants of the Town.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Interfund Activity

Interfund activity is reported as loans, reimbursements, or transfers. Loans are reported as interfund loan receivables and payables as appropriate and are subject to elimination upon consolidation in the government-wide presentation. Reimbursements are when one fund incurs a cost, charges the appropriate benefiting fund and reduces its related costs as a reimbursement. Since not all funds maintain a separate cash account, cash is pooled in the General Fund cash account and activity for individual funds are recorded through the General Fund and each respective individual fund through the recognition of a "due to/due from" as appropriate. The due to/from other funds balances are subject to elimination upon consolidation in the government-wide presentation. All interfund transactions are treated as transfers. Transfers between governmental funds are netted as part of the reconciliation to the government-wide financial statements

Long-Term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities statement of net position. Bond premiums are deferred and amortized over the life of the bonds using the straight-line method. Bond issuance costs are recognized as an expense in the period incurred.

Notes to Financial Statements

Town of Northport, Maine

Note A - Summary of Significant Accounting Policies - Continued

Long-Term Obligations - Continued

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Deferred Outflows and Inflows of Resources

In addition to assets, the statement of net position and the governmental funds balance sheet will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period and so will not be recognized as an expense or expenditure until that time. The Town has two items that meet this criterion: the deferred other postemployment benefits (OPEB) related to the Town and the deferred pension, related to the Northport School Department. These items are reported in the statement of net position.

In addition to liabilities, the statement of net position and the governmental funds balance sheet will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period and so will not be recognized as an inflow of resources (revenue) until that time. The Town has two types of items: 1) unavailable revenue, which results from property taxes, which arises under the modified accrual basis of accounting that qualifies for reporting in this category and is reported in the governmental funds balance sheet and 2) deferred inflows related to the OPEB liability, which is reported in the statement of net position. The Northport School Department also has one type of item, deferred pensions, which is reported in the statement of net position.

Pensions

In government-wide financial statements, retirement plans (pensions) are required to be recognized and disclosed using the accrual basis of accounting (see Note G and the required supplementary information following the financial statements), regardless of the amount recognized as pension expenditures on the governmental fund statements, which use the modified accrual basis of accounting.

Notes to Financial Statements

Town of Northport, Maine

Note A - Summary of Significant Accounting Policies - Continued

Pensions - Continued

In general, the Northport School Department recognizes a net pension liability, which represents the School Department's proportionate share of the excess of the total pension liability over the fiduciary net position of the pension reflected in the actuarial report provided by the Maine Public Employees Retirement System (MainePERS). The net pension liability is measured as of the School Department's prior fiscal year-end. Changes in the net pension liability are recorded, in the period incurred, as pension expense or as deferred inflows of resources or deferred outflows of resources depending on the nature of the change. The changes in net pension liability that are recorded as deferred inflows of resources or deferred outflows of resources (that arise from changes in actuarial assumptions or other inputs and differences between expected or actual experience) are amortized over the weighted average remaining service life of all participants in the respective pension plan and are recorded as a component of pension expense beginning with the period in which they are incurred.

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Teachers Pension Plan (TPP) and additions to/deductions from the TPP's fiduciary net position have been determined on the same basis as they are reported by the TPP. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Projected earnings on pension investments are recognized as a component of pension expense. Differences between projected and actual investment earnings are reported as deferred inflows of resources or deferred outflows of resources and amortized as a component of pension expense on a closed basis over a five-year period beginning with the period in which the difference occurred. Each subsequent year will incorporate an additional closed basis five-year period of recognition.

Postemployment Benefits Other Than Pensions (OPEB)

For purposes of measuring the Town's OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the Maine Municipal Employees Health Trust, an agent single-employer defined benefit postretirement healthcare plan (the Plan) and additions to/deductions from the Plan's fiduciary net position have been determined on the same basis as they are reported by the Plan. For this purpose, the Plan recognizes benefit payments when due and payable in accordance with the benefit terms. Investments are reported at fair value, except for money market investments and participating interest earning investment contracts that have a maturity at the time of purchase of one year or less, which are reported at cost.

Revenue Recognition - Property Taxes

The Town's property tax for the current year was levied August 1, 2022, on the assessed value listed as of April 1, 2022, for all real and personal property located in the Town. Taxes were due September 30, 2022 and March 1, 2023. Interest on unpaid taxes commenced on October 1, 2022 and March 2, 2023, at 4% per annum.

Property tax revenues are recognized when they become available. Available includes those property tax receivables expected to be collected within sixty days after year end. The remaining receivables have been recorded as unavailable revenue from property taxes.

The Town is permitted by the laws of the State of Maine to levy taxes up to 105% of its net budgeted expenditures for the related fiscal period. The amount raised in excess of 100% is referred to as overlay, and amounted to \$51,695 for the year ended June 30, 2023.

Tax liens are placed on real property within twelve months following the tax commitment date if taxes are delinquent. The Town has the authority to foreclose on property eighteen months after the filing of the lien if tax liens and associated costs remain unpaid.

Government-wide Fund Net Position

Government-wide net position is divided into three components:

Net investment in capital assets - consist of the historical cost of capital assets less accumulated depreciation and less any debt that remains outstanding that was used to finance those assets.

Restricted net position - consist of net assets that are restricted by the Town's creditors (for example, through debt covenants), by the state enabling legislation (through restrictions on shared revenues), by grantors (both federal and state), and by other contributors.

Unrestricted - All other net asset positions are reported in this category.

Governmental Fund Balances

In the governmental fund financial statements, fund balances are classified as follows:

Nonspendable - resources which cannot be spent because they are either a) not in spendable form or; b) legally or contractually required to be maintained intact.

Restricted - resources with constraints placed on the use of resources are either a) externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments; or b) imposed through constitutional provisions or enabling legislation.

Committed - resources which are subject to limitations the government imposes upon itself at its highest level of decision making, and that remain binding unless removed in the same manner.

Notes to Financial Statements

Town of Northport, Maine

Note A - Summary of Significant Accounting Policies - Continued

Governmental Fund Balances - Continued

Assigned - resources neither restricted nor committed for which a government has a stated intended use as established by the Selectboard or a body or official to which the Selectboard has designated the authority to assign amounts for specific purposes.

Unassigned - resources which cannot be properly classified in one of the other four categories.

Use of Restricted Resources

The Town has no formal fund balance policy. For purposes of fund balance classification, expenditures are to be spent from restricted fund balance first, followed in order by committed fund balance, assigned fund balance and lastly unassigned fund balance.

Note B - Cash and Investments

The Town conducts all its banking and investment transactions with its depository banks and investment firm.

Custodial Credit Risk

At June 30, 2023, the carrying amount of the Town's deposits was \$4,804,976 and the bank balance was \$4,793,898. The difference between the carrying amount and the bank balance relates to deposits in transit, outstanding checks and cash on hand at year-end.

Custodial credit risk is the risk that in the event of a bank failure, the Town's deposits may not be returned to it. The Town does not have a deposit policy on custodial credit risk. As of June 30, 2023, \$2,519,156 of the Town's bank balance of \$4,793,898 was exposed to credit risk as follows:

Collateralized with securities held by the pledging financial institution	<u>\$ 2,519,156</u>

Notes to Financial Statements

Town of Northport, Maine

Note B - Cash and Investments - Continued

Investments

Maine statutes authorize the Town to invest in obligations of the U.S. Treasury and U.S. agencies, repurchase agreements, certain corporate stocks, bonds, and mutual funds.

Interest Rate Risk

In accordance with the Town's investment policy, to the extent possible, investment maturities will be matched with anticipated cash requirements. At June 30, 2023, the Town had the following investments and maturities:

<u>Investment Type</u>	<u>Fair Value</u>	<u>Not Applicable</u>	<u>Maturity</u>		
			<u>Less than 1 year</u>	<u>1-5 years</u>	<u>More than 5 years</u>
Bonds	\$ 246,873	\$ -	\$ 246,873	\$ -	\$ -

	<u>\$ 251,891</u>	<u>\$ 5,018</u>	<u>\$ 246,873</u>	<u>\$ -</u>	<u>\$ -</u>

Credit Risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. Credit risk is minimized by diversifying investments held. At June 30, 2023, the Town had the following credit quality distribution in debt securities:

<u>Standard & Poor's Rating</u>	<u>Fair Value</u>
AA+	<u>\$ 246,873</u>

Custodial Credit Risk

For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the Town will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The Town does not have an investment policy on custodial credit risk. As of June 30, 2023, the Town had no investments subject to custodial credit risk.

Note G - Pension - Northport School Department

The Northport School Department provides a retirement pension plan for its employees through a defined benefit pension plan.

Defined Benefit Pension Plan - Maine Public Employees Retirement System (MEPERS)

Plan Description

Qualifying personnel of the School Department participate in the Maine Public Employees Retirement System. The plan is a multiple employer, cost-sharing pension plan with a special funding situation. The State of Maine is a non-employer contributing entity in that the state pays the unfunded actuarial liability (UAL) on behalf of the teachers, while the School Department contributes the normal cost, which is actuarially calculated. The School Department has been enrolled in the MEPERS system since July 1, 2015. MEPERS is established under Maine law found in 5 MRSA Part 20. The authority to establish and amend benefit provisions rests with the State legislature.

Funding Policy

The School Department makes available to all full time employees the option to make a one-time irrevocable election to participate in the Maine Public Employees Retirement System (MEPERS), State Employees and Teachers Plan. The employee shall pay, through payroll deduction(s), his/her required contribution determined by MEPERS, 7.65%. The School shall pay its required contribution determined by MEPERS. This benefit shall be offered to eligible employees on the date of hire.

Pension Benefits

Benefit terms are established in Maine Statute. The System's retirement programs provide defined retirement benefits based on member's average final compensation and service credit earned as of retirement. Vesting (i.e. eligibility of benefits upon reaching qualification) occurs upon the earning of 25 years of service credit for School Department employees.

Normal retirement age of State Employees and Teachers members is age 60 to 65. The normal retirement age is determined by whether a member had met certain creditable service requirements on specific dates, as established by statute.

The monthly benefit of members who retire before normal retirement age by virtue of having at least 25 years of service credit is reduced by a statutorily prescribed factor for each year of age that a member is below her/his normal retirement age at retirement. The System also provides disability and death benefits which are established by statute for State employee and teacher members.

Upon termination of membership, members' accumulated employee contributions are refundable with interest, credited in accordance with statute. Withdrawal of accumulated contributions results in forfeiture of all benefits and membership rights. The annual interest credited to member's accounts is set by the System's Board of Trustees.

Note G - Pension - Northport School Department - Continued

Member and Employer Contributions

Retirement benefits are funded by contributions from members and employers and by earnings on investments. Disability and death benefits are funded by employer normal cost contributions and by investment earnings. Member and employer contribution rates are each a percentage of applicable member compensation. Member contribution rates are defined by law or Board rule and depend on the terms of the plan under which a member is covered. Employer contributions rates are determined through actuarial valuations. For the year ended June 30, 2023, the member contribution rate was 7.65%, the School Department's contribution rate was between 3.84% and 4.47% (normal cost), and the State of Maine contributed between 11.79% and 14.89% (UAL).

Revenue Recognition

Employer contributions to the System are recognized as additions in the period when they become due pursuant to formal commitments or statutory requirements. Investment income is recognized when earned and investment expenses are recorded when incurred.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2023, the School Department reported a net pension liability of \$84,922. The net pension liability was measured as of June 30, 2022, and the total pension liability used to calculate the net pension liability was determined by actuarial valuation as of that date. The School Department proportion of the net pension liability was based on a projection of the School Department's long-term share of contributions to the pension plan relative to the projected contributions of all participating members. At the June 30, 2022 measurement date, the School Department proportion was 0.005719%. At the June 30, 2021 measurement date, the School Department proportion was 0.005526%.

At June 30, 2023, the reported deferred outflows of resources and deferred inflows of resources related to pension from the following sources are as follows:

	Deferred Outflows of <u>Resources</u>	Deferred Inflows of <u>Resources</u>
Differences between expected and actual experience	\$ 4,231	\$ -
Changes in assumptions	16,490	-
Net difference between projected and actual earnings on pension plan investments	-	16,725

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions - Continued

Amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

For the Year Ended June 30,	
2024	\$ 80,307
2025	(6,063)
2026	(9,463)
2027	7,889
Total	<u>\$ 72,670</u>

At June 30, 2023, the School Department's reported net pension liability was a portion of the total proportionate share of the collective net pension liability associated with the School Department's participation in the Teacher plan, as follows:

School Department's proportionate share of net pension liability	\$ 84,922
State of Maine's proportionate share of net pension liability	986,161
Total	<u>\$ 1,071,083</u>

For the fiscal year ended June 30, 2023, the School Department recognized pension expense of \$71,655, State support and expense of \$169,545, and on-behalf payments of \$137,593.

Actuarial Assumptions

The total pension liability in the June 30, 2022 actuarial valuation was determined using the following actuarial assumptions applied to all periods included in the measurement:

Inflation	2.75%
Salary Increases	2.80%
Investment Rate of Return	6.50%
Cost of Living Benefit Increases	2.20%

For the School Department employees, the mortality rate is based on the 2010 Public Plan Teacher Benefits tables for males and females.

The long-term expected rate of return on pension plan investments were determined using a building-block method in which best-estimate ranges of expected future real rates or return (expected returns, net of pension plan investment expense and inflation) are developed for each major class of assets. These ranges are combined to produce the long-term expected rate of return by weighing the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

Notes to Financial Statements

Town of Northport, Maine

Note G - Pension - Northport School Department - Continued

Actuarial Assumptions - Continued

Best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset allocation as of June 30, 2022 are summarized in the following table:

	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
U.S. Equities	30%	6.0%
U.S. Government	10%	2.3%
Private Equity	12.5%	7.6%
Real Assets:		
Real Estate	10%	5.2%
Infrastructure	10%	5.3%
Hard Assets	5%	5.0%
Traditional Credit	5%	3.2%
Alternative Credit	10%	7.4%
Diversifiers	<u>7.5%</u>	5.9%
	<u>100%</u>	

Discount Rate

The discount rate used to measure the total pension liability was 6.50%. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that employer and non-employer entity contributions will be made at contractually required rates, actuarially determined. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments to current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following presents the School Department's proportionate share of the net pension liability calculated using the discount rate of 6.50%, as well as what the School Department proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower (5.50%) or 1 percentage point higher (7.50%) than the current rate:

	<u>1% Decrease (5.50%)</u>	<u>Current Discount Rate (6.50%)</u>	<u>1% Increase (7.50%)</u>
Proportionate Share of the Net Pension Liability	\$ 166,298	\$ 84,922	\$ 17,168

Note H - Postemployment Benefits Other than Pensions (OPEB)

The Town of Northport provides certain other postemployment benefits to its employees through the following plans:

Northport School Department - Group Life Insurance Plan - Maine Public Employees Retirement System (MEPERS)

Plan Description

Qualifying personnel of the School Department participate in the Maine Public Employees Retirement System, including that system's Group Life Insurance Plan. This plan is a multiple employer, cost-sharing OPEB plan with a special funding situation. The State of Maine is a non-employer contributing entity in that the state pays 100% of the actuarially determined contributions for retirees.

Benefits Provided

Under the GLI OPEB plan, MEPERS provides basic group life insurance benefits, during retirement, to retirees who participated in the plan prior to retirement for a minimum of 10 years. The level of coverage is initially set to an amount equal to the retirees' average final compensation. The initial amount of basic life is then subsequently reduced at the rate of 15% per year to the greater of 40% of the initial amount or \$2,500.

Contributions

Premium rates are those determined by the System's Board of Trustees to be actuarially sufficient to pay anticipated claims. Premiums for basic life insurance coverage for retired teachers are paid by the State as the total dollar amount of each year's annual required contribution.

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

At June 30, 2023, the School Department reported a net OPEB liability of \$0, as the State of Maine's non-employer contributing entity required participation level is 100%. At June 30, 2023, the School Department's reported net OPEB liability was a portion of the total proportionate share of the collective net OPEB liability associated with the School Department's participation in the Teacher plan, as follows:

School Department's proportionate share of net OPEB liability	\$	-
State of Maine's proportionate share of net OPEB liability		<u>22,349</u>
Total	\$	<u>22,349</u>

For the fiscal year ended June 30, 2023, the School Department recognized OPEB expense of \$2,375, State support of \$2,375, and on-behalf payments of \$2,664.

No deferred inflows of resources or deferred outflows of resources arising in connection with this plan are reportable by the School Department given that the State of Maine is obligated to fund 100% of the actuarially required contributions attributable to retirees.

Northport School Department - Group Health Insurance Plan - Maine Education Association Benefits Trust (MEABT)

Plan Description

Qualifying personnel of the School participate in the MEABT Group Health Plan. This plan is a single-employee OPEB plan not administered through a trust or similar arrangement. Accordingly, no assets are accumulated within the plan for the payment of future benefits.

Benefits Provided

Under the Health Plan, MEABT provides healthcare and life insurance benefits for retirees and their dependents. School employees over the age 55 with at least 5 years of continuous service are allowed to participate in the plan. Retirees that are designated in a plan pay 45% of the single coverage premium and 100% of the family coverage premium. At June 30, 2022 there were 19 active employees participating in this plan and 1 inactive retiree entitled to benefits.
