

Northport Climate Resilience Committee
Minutes
Thurs November 20, 2025, 3:00 pm
Northport Town Office

Present: Sue Conard, Pat Gladding, Celine Bewsher, Tinsley Morrison, Molly Schauffler

Minutes:

Updates: Our shared drive is now in the Town's G-drive, moved from Molly's UMaine drive. The link to the drive is <https://drive.google.com/drive/u/2/folders/0ABhH8uPA69c3Uk9PVA> Let Molly know if you have trouble accessing it.

The Committee:

- Discussed the timeline and process for the Town to install a 59 kW solar array at the old salt/sand shed on Beech Hill Rd.
- Unanimously approved using the Climate Resilience Fund to receive donations towards the solar project and to pay for the project. Our intent is to raise all funds for the solar array through grants and donations, and not through tax dollars.
- Approved the draft letter to those who are donating to cover the deposit
- Discussed details about how the electricity generated by the panels can be allocated before and after the new building is built and raised several technical questions to ask the bidders.
- Decided to use time at our December meeting to plan a strategy for presenting the project to residents at the January Special Town Meeting.

Next meeting: Thurs Dec. 11, 2025, Town Office

3:30 Adjourned.
